

Photo Caption Sheet

You may use this form to provide captions for photos. Using post-it notes is still the preferred method. If you are very careful, you may use a ballpoint pen to write the caption on the back; however, you must write very lightly in order not to damage the print. Never use a felt-tip pen on photos.)

Number the back of the corresponding photo. If submitting more than 6 photos, add a letter after the number, i.e., 1a, 2a, etc.
